Bruce D. Jobse

Assistant Commissioner for Patents  
Washington, D.C. 20231

In response to the office communication dated February 20, 2002, please amend the above-identified application as follows:

**Substitute Claims**

Please substitute the following claims for pending claims with the same numbers.

95. In a computer system operatively connectable to a source of content and capable of executing a viewer program, the viewer program having a plurality of functions related to presenting the content from the source, a method comprising:

- H1  
Cont'd  
F1
- (A) receiving content from the source;
  - (B) receiving function authorization data indicating which of the viewer functions may be performed on the content from the source;
  - (C) presenting the content with the viewer program; and
  - (D) disabling selected viewer functions in accordance with the function authorization data received from the source.
